Trying to compare apples with apples?

Riviera AL is a prime example of an internal PVC shutter, where it is about what's on the inside that makes the difference...

Riviera AL is a 'non-toxic' PVC shutter which does not omit volatile organic compounds (VOC) or harmful emissions - this makes them safe for the whole family. Riviera AL PVC shutters are perfect for all domestic and commercial uses, as well as in high-temperature climates.

With Aluminium re-enforced Blades and Stiles, Riviera AL is well known for quality, strength and durability standing the test of time backed by an industry leading manufacturer.

Key Points about Riviera AL:

- VOC Free / do not omit volatile organic compounds
- Control the amount of light filtering into a room
- Not affected by moisture or humidity
- Provide excellent thermal and acoustic insulation
- Aluminium re-enforced styles and blades on all panels including under 600mm wide panels
- Extruded from a quality PVC
- Available in 12 colours
- Blade Sizes: 63mm, 89mm and 114mm
- Maximum panel width of 800mm
- Centre tilt rod, offset tilt rod and clear view options
- Bi-fold, sliding and hinged options available
- 10 year finished product warranty
